

5 ways CLM

Creates Value in Contracts

Automated Alerts

Help track SLAs and contractual commitments. Periodic alerts allow all stakeholders to be prepared for expiries or renewals.

Visible Commitments

All stakeholders have access to contractual documentation which keeps long-term commitments in the know.

Performance Analysis

Vendor performance and customer satisfaction insights based on benchmarks and KPIs help improve business profitability.

Mitigated Risk

Risks can be identified through assessment of contract language, sensitive data screening, agreement monitoring and risk ratings.

Improved Negotiations

Organizations are up-to-date on milestones, expiries, and renewals which can help prepare for favourable negotiations.
